

39 Cause of Sin

Sin is a bad stewardship of God's Love. We love our wrong desires more than we love God so we deal with them incorrectly in a way God does not want them dealt with. And so, we disobey God and Sin.

The first time something happens in The Bible is the basis on which to look at all other events of a similar nature and when we examine all of them that we call sin, we find it is a love of our desires and a rejection of what God desires to do out of love for him.

Adam was to be a good steward of the garden of Eden and if he had loved God he would not have been a bad steward (caretaker of the garden) which resulted in Eve eating the forbidden fruit. Hers was the second sin.

If you examine all sin you will find a lust is behind it.

Lust is the expression of our flesh which is at enmity with God so that it does not do what God desires you to do. And you disobey God showing a lack of love for His Things and falling short of His requirements of you.

If you love God you will be a good steward of everything He gives you to look after for Him of which our love for Him and its expression is the most important. After all, salvation is having a correct love relationship with God and The Father guided by The Holy Spirit and His Love for us drives us to serve Him correctly and love Him.
