

The Five Steps

Whenever you are attacked by Satan fight back using these five steps that The Holy Spirit showed me.

Give the attack, problem or situation to Jesus to be Lord of.

Just give it to Him by what is happening or the area of attack.

Make sure you have nothing that will stop you being herd:

No unforgiveness

No desire to not reconcile with someone

A sin you do not want to give up

You are showing the Love of God all you meet.

These are the four main reasons many Christians go to hell.

In Jesus' Name command Satan to leave all you have given to Jesus to be Lord of and to take all he did to you, with him.

In Jesus' Name command healing and restoration of all Satan did to you

Ask The Holy Spirit to fill you completely, This is important as it stops demons coming back in. Thank The Father, Jesus and The Holy Spirit for what they just did for you.

How Satan attacks.

To sin you have to agree with what Satan is suggesting you do. He cannot make you sin. He can only suggest it in the hope you will agree with what he suggests and sin.

If you do something not knowing it is wrong, you do not sin. Sin is deliberate rebellion against God's Will.

Remember, God does not judge you on your results but on what you think and decide to do.

How does Satan suggest you to sin?

He does the following:

Places thoughts in your mind

Emotions on you

Feelings in your body to excite you

Lusts in you

You wondered why you had these unchristian thoughts and feelings?
They were from Satan trying to persuade you to sin and not from yourself.

Just resisting the thought or casting out the demon attacking you does not remove the temptation as another demon replaces them.

Giving it to Jesus to be Lord of stops them as they have to get His permission to attack you in an area He is Lord of.

Satan has to get you to agree with what he suggests so that you do it and he then is lord of the situation.

The Family of God

The Father in heaven has adopted you as His Child so that you are part of His family as is every other Christian. This means every other Christian is either your step brother or step sister.

Denominations divide the body as they imply you belong to a denomination (a manmade body) and not the Family of God.

The family is made up of children adopted by The Father and not from denominational members. So, while the denomination is maintained, the Family of God and the love that should be between Christians is hindered.

Remember

You only sin if you do what Satan suggests you do or you do not do what you know God wants you to do.
